SKILLS AND EXPERTISE

1. skilled in JavaScript, CSS, and HTML
2. knowledge with the React and Node.js frameworks
3. Knowledge of Core Java and Java Spring Boot
4. knowledge with running databases, both Mysql or MongoDB.
5. strong ability to analyze and solve problems
6. proficiency with Microsoft Excel, including functions and calculations

LANGUAGES

- English (Basic)
- Hindi (Fluent)

EDUCATIONAL HISTORY

Master of Computer Applications(MCA)

Jain (Deemed-to-be University) || 2022-24

- Computer Science & Information Technology (CS&IT)

Bachelor of Computer Applications (BCA)

- Babasaheb Bhimrao Ambedkar Bihar University||2017-20

12th Science PCM

- K T College Motihari Bihar

Project

1. Tip_Calculator_project

- The Tip Calculator is built using a combination of HTML, CSS, and JavaScript, leveraging the power of web technologies to deliver a seamless user experience. The frontend interface is designed with simplicity and usability in mind, ensuring that users can effortlessly navigate the application and obtain the desired tip calculation results.
- project Link:-https://github.com/rajyati/Tip_Calculator_project

2. Fitness-Tracker-App

- created a feature-rich Java Fitness Tracker program to assist users in keeping track of their workout schedules, dietary intake, and general fitness advancement. used Java language features and object-oriented programming concepts to produce a user-friendly interface and reliable functionality.

3. Ticket-Management-System

- created a dynamic ticket management system with Bootstrap, JavaScript, HTML, and CSS with the goal of improving ticketing procedures and handling customer queries and support requests more effectively. made use of front-end web technologies to guarantee cross-browser compatibility and produce an easy-to-use user experience.

WORK EXPERIENCE

Afame Technologies

Web Development Intern - • April 2024 - Present (2 months)

1. Participated in the design and development of responsive web applications remotely as part of a team of developers.
2. developed user interfaces and frontend components using HTML, CSS, and JavaScript, making sure they were accessible and cross-browser compatible.
3. acquired practical expertise with cutting-edge frontend frameworks, such as React.js, to improve the functionality and interactivity of online projects.
4. contributed to the creation of reliable and scalable web solutions by helping to integrate backend functionalities utilizing technologies like Node.js.
5. I took part in daily stand-ups, code reviews, and debugging sessions to make sure project milestones were delivered on time and in good condition.
6. kept up to speed with the newest trends and best practices in web development by engaging in ongoing study and skill development.
